**This is an archive of actively maintained links to RPG Troves.**

**Each one is a single game, theme, or publisher and strives to be complete.**

If you wanted to help, you could join the Anon Brigade by becoming a Curator and/or by finding stray pdfs for other Curators.

Pick a game or small publisher you like that's not too big and complete it as best you can easily.

Really prolific games can be divided into components; by edition, setting, publisher etc.

Upload the pdfs somewhere. Hunt for and request the missing things. If it gets taken down, put it up again later. Using indirect links like \$nip li or pasteb!n has a real advantage in that this document will tend to stay valid without constant editing.

I found this **big honking list of rpgs**,  
that probably means everyone else has known about it for ages.

It stopped in 2007, it has descriptions and stuff.

This one started in 2008

**Sorry for the incomplete links and funny L33t spelling of upload site names**  
ss, @SS or \$\$ is Send Spaace, m3g@ is Megaa, <d0t> is a period or dot as in dot com

There is a u\$ercl0ud and a u\$er\$c10ud, be careful to go to the correct one.

Add the hypertext protocol colon stuff to the front then the upload site spelled correctly,  
then add the final gibberish to build a complete link.
